### **Cloudy with a Chance of Clarity**

#### **Reporting Santa Cruz County Retirement Costs and Obligations**

**SANTA CRUZ COUNTY** - The Grand Jury's investigation of the reporting of long-term retirement liabilities reveals that the county fails to provide a single, summary document that is an easily accessible, clear, and understandable accounting of these liabilities. The Grand Jury recommends that a summary document of these liabilities be included in the county's budget. This would give county citizens access to information that several cities and other entities within the county are already providing.
